

Mix & Flow of Matter

I Can Statements

I Can...

1. ...Investigate and describe fluids used in technological devices and everyday materials.
2. ...Investigate and describe the composition of fluids, and interpret the behavior of materials in solution.
3. ...Investigate and compare the properties of gases and liquids; and relate variations in their viscosity, density, buoyancy and compressibility to the particle model of matter.
4. ...Identify, interpret and apply technologies based on properties of fluids
